Databases Descriptions

ELibrary Curriculum Edition

ELibrary Curriculum Edition database is recognized worldwide because of its comprehensive coverage, high-quality information, and rigorous editorial control. Is the ultimate easy-to-use curriculum and reference resource--delivers one of the largest collections of periodical and digital media content designed specifically for K-12 schools and libraries. ELibrary CE connects educators and students to the best online resources to supplement instruction and research.

Students find the answers they need from more than 2,000 full-text magazines, newspapers, reference books, and transcripts-plus thousands of pictures, maps, and educator-approved websites from Homework Central®, plus audio/video content.

ProQuest Platinum

ProQuest Platinum offers a comprehensive publication collection that meets a wide range of research demands. From general reference to advanced subject matter, Platinum has more than 2,000 titles that cover it all.

Researchers at any level of expertise can search by keyword, Boolean logic, topic, or publication. Power searchers can use ProQuest's renowned indexing to construct targeted queries. Marked lists make it easy to save articles. And users can view, print, or email any article in one easy step.

Sirs Knowledge Source

SIRS Knowledge Source (SKS) provides a portal to relevant, credible information carefully hand-selected by our SIRS editorial staff. When students use SIRS SKS, they receive best-of content designed to support student research, study, and homework in key curricula subjects. Use SKS to search many of these SIRS resources at once, or to link to each SIRS collection:

- **SIRS Researcher®**--topical pro/con coverage of current and enduring issues, including over 100 Leading Issues
- **SIRS® Government Reporter**—resources by and about the U.S. government
- **SIRS® Renaissance**--current perspectives on the arts and humanities
- **SIRS® WebSelect**--a collection of more than 20,000 reliable and credible websites

w w w . e t e c h w e b s i t e . c o m

covering all SKS topics

- **SIRS® Interactive Citizenship**--what every citizen should know about government, economics, and world affairs
- **SIRS® Decades**--Link to a portal of primary and secondary sources covering 20th Century American History.
- **SIRS Discoverer®**--Link to content selected for younger researchers in grades 3-9

ProQuest® Education Journals

ProQuest Education Journals offers a comprehensive research collection of more than 650 magazines and journals for K-12 professional development and continuing education--the ultimate resource to help teachers stay current in their profession.

Teachers and administrators alike will keep their edge with:

- Articles that model excellence in learning and teaching
- Support for professional in-service use, subject mastery, research on classroom application and efficacy, curriculum support, lesson planning, and study for advanced degrees
- Enhanced technological literacy

ProQuest® Learning: Literature

ProQuest Learning: Literature delivers more than 180,000 searchable works of literature from medieval times to the present. Students can find author biographies, contemporary criticism, reviews, and multimedia resources organized into more than 3,000 Author Pages. It also features 100+ searchable full-text literary journals and magazines for the latest in literary criticism.

History Study Center™

History Study Center offers valuable historical reference material that covers 14 centuries of history--from ancient to modern, old world to new world. Explore the rise and fall of the Roman Empire, the growth of Islam, the ideas of Enlightenment and Revolution, the effects of colonialism, the explosion of American pop culture, and much more.

It's a unique reference tool that delivers a comprehensive collection of primary and secondary source material that meets the needs of both AP and mainstream courses in Social Studies.

CultureGrams Online Edition

CultureGrams Online links you to all its editions, including World, Kids, and States. Include: photo gallery, maps, biographies, videos and slideshows, and a unique recipe collection that offers five authentic recipes for every country in the database. Plus, create-your-own data tables and charts help put facts into perspective.

- **World Edition** contains reports on over 200 countries and cultures, focusing on 25 categories including history, personal appearance, gestures, family, economy, and more. Statistical tables and extensive multimedia make the World Edition perfect for student projects, research, and more.
- **Kids Edition** is a collection of over 80 country reports for upper elementary-aged children. Each report provides up-to-date, engaging cultural information, with images, maps, historical timeline, fun facts, and sections on history, population, "life as a kid," and more.
- **States & Provinces Editions** feature colorful, easy-to-read state reports covering each U.S. state, the District of Columbia, and each Canadian province and territory. They include maps, flags, symbols, plus sections on history, economy, geography, population, and more.

About e-Tech Solutions

e-Technologies Solutions promotes information content, e-Learning solutions and the hardware needed to present a complete solution to the academic market in Latin America and The Caribbean. We have our focus on strategic alliances with innovate and technology companies leader in this industry. These alliances have given us the opportunity to configure a portfolio necessary to transfer information technology to Latin America and The Caribbean.

PROQUEST / CSA is the company formerly known as University Microfilms International (UMI), and most recently as Bell & Howell Information and Learning. Throughout the company's 65-year evolution we've established our position as the leading provider of microform and electronic information to schools, academic, public, and government libraries around the world. Our family of products now includes not only the ProQuest brand, but also UMI, Chadwyck-Healey, SoftLine, Serials Solutions, Bepress Digital Commons, eLibrary, and SIRS - brands that have come to define quality for academic, library, and classroom products.

Since 1938, we've worked closely with the worldwide publishing community to preserve and provide access to information. Our many long-term, trusted partnerships with publishers have made ProQuest the information company of choice for over 9,000 publishers. Throughout our history we've invested in and developed the newest technologies - from microform to CD-ROM to online products - to continually meet and exceed our customers' expectations in the delivery of information.

ProQuest Company family of products eTech represents with exclusivity:

- **ProQuest:** provides global access to one of the largest online content repositories in the world. With it, users will find answers to their questions in fields that range from genealogy to the latest scientific breakthrough to emerging business strategies.

Today students, faculty, researchers, and library patrons around the world use our subscription-based ProQuest service at a rate of more than 2.5 million page views per day. They do so at thousands of schools, colleges, and

w w w . e t e c h w e b s i t e . c o m

public libraries of all sizes in the U.S., Canada, and more than 100 other countries.

In addition, the ProQuest brand today encompasses more than 100 products and services for research and learning at all levels. Users get easy Web access to more than 4,000 newspapers and periodicals, over a million dissertations, and a wide range of other content. Many of the online products are unique and deliver more full text than any comparable resource.

Additional Services

1. -Training to users, administrators and Library personnel

The training to the users is done by personnel highly knowledgeable and permanently available throughout Latin America. It is a fundamental element for the good use and benefit of data bases. Training goes directed to the Librarians, teachers, students, and all those users who the Institutions consider advisable to prepare.

2. - Functions of the administration module

The system provides an administrators' access password for librarians/head of schools to obtain reports on the activity use of the collection. This tool helps them make decisions in associated to the development of the same ones.

3. – On-line Customer Service and Technical Support

e-Tech Solutions Corp., will give access to the databases approximately two to three days once the order has been received, the license agreement is properly signed and the commercial terms of negotiation are finalized. We will assist in any operative/technical requests though telephone, online, electronic mail or with local attendance of our technical department.

The Engineers of ProQuest and our equipment will supervise the complete process to assure that all the installation and access to the information system are completed according to the recommendations.

We currently have personal through the different countries in Latin America which allow us to provide additional service by telephone or email, and in extreme cases even by attending the school in order to solve the problem.
